

YOUNG
EARTH SYSTEM
SCIENTISTS
community

“Scientific speed dating” for Early Career Researchers (ECRs) Wed, 26 Apr, 19:00–20:00 / Room 0.15

Meet and greet with other ECRs to foster international and interdisciplinary research!
Subsequent we invite all participants to join us for an “After-Conference-Drink”!

Young Earth System Scientists

an interdisciplinary community
of early career researchers
a c r o s s t h e g l o b e

- ✓ YESS welcomes members from a range of scientific backgrounds, creating a synergy between researchers in natural and social sciences who represent the future of earth system science.
- ✓ YESS serves as a powerful partner with prominent international organizations to give young scientists a collective voice.
- ✓ YESS sets an example for the scientific community through an incorporated online network, reducing our carbon footprint and enabling interaction across diverse regions and cultures.

As young scientists, we have a critical role in shaping the future of Earth system science. We lead new endeavors in the frontiers of science, seamlessly integrating international research across multiple disciplines. Within YESS we seek to pioneer crucial areas of research which provide solutions to benefit society.

The YESS community is focused on early career researchers (PhD candidates, Postdocs within 5 years after PhD, or Masters students) in the Earth system sciences. YESS consists of the YESS members, the Council, Working Groups, Regional Representatives, and the Executive Committee.
